Hainer, secretary-treasurer scholarship trustees, 1239 South Nineteenth street, Lincoln. This scholarship, like those of Omaha university and Brownell Hall, is given without a time limit, and it therefore remains for each club belonging to the State Federation to nominate a student.

## CREIGHTON NIGHT AT BOYD

Entire House is Rented Out for Wednesday Evening for Performance of Strongheart.

### PROCEEDS GO TO THE GYM

The Creighton gym night at the Boyd theater, Wednesday evening, promises to be a big occasion for the students and the friends of the university. The alumni and students have purchased the seating capacity for this evening, when the regular company now appearing at that theater will appear in "Strongheart," the famous play picturing the Indian at college. The proceeds will go toward the erection of a gymnasium at Creighton.

The student committee in charge, consisting of Charles Shook, James Martin, Richard Kelly and Carl Rasmussen, is pushing the affair, and the sale of seats promises a fat contribution to the gym fund.

A number of features will be uncorked on this evening. Notable among these will be the part which Tommy Mills, coach-elect at Creighton, now coaching Omaha High, will take. Mills, who is also an actor, will take a part in the play and the students are planning a demonstration in his behalf.

A large number of alumni have purchased tickets. They will appear in groups throughout the house.

The college team which will appear on the stage is representative of Creighton university.

Throughout the week the Boyd theater will be draped with the blue and white colors of Creighton. Interest among the students is high, and has led to the postponement of the annual oratorical contest, which was slated for the university auditorium on that evening.

Messrs. Koehler, Baldwin, Weisenhorn and Schell will appear in a special quartet number by the Varsity Glee club.

## Unemployed Miners to Appeal to Law

**BUTTE, Mont., Jan. 17.**—Talk of trying to promote a general strike of Butte unions, previously indulged in by unemployed miners, was not heard at a mass meeting of the jobless men last night. Committees were appointed to consult with other unions with a view to the institution of legal proceedings against various copper companies, which are accused of maintaining a black list as a result of the recent labor troubles here.

It was said at the meeting that action would be brought against the companies in the federal court.

A committee's report stated "that in view of the recent decision of the United States supreme court in the Danbury Hatters' case, rendered a few days ago, it appears that if the workers can be held as offenders for boycott and discrimination in this particular case there is no reason why the workers of Butte who have been discriminated against could not hold employing corporations responsible."

## Bose Shows Bryan How Plants Breathe

**WASHINGTON, Jan. 16.**—Secretary Bryan's office took on the appearance for a time yesterday of an experimental laboratory, when Prof. J. C. Bose of Calcutta, India, with some delicate apparatus measured the heart beats of a plant and showed the effects of plant life on poisons and strong restoratives. A number of department officials witnessed the novel experiments.

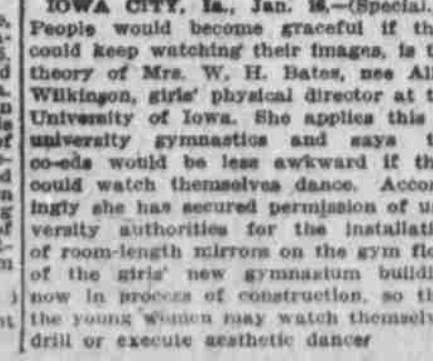

Secretary Bryan met Prof. Bose in India several years ago when he was on a trip around the world.

## STORM DOES NOT STOP OPENING OF NEW BRIDGE

Regardless of the blizzard the Burlington's new concrete bridge over the Platte river this side of Ashland was connected up with the main line tracks and Sunday it will go into service for the first time. While the track was being laid Burlington trains to and from the west were operated by way of Oread and Mary.

The connecting up of the tracks meant the laying of about ten rail lengths at the east end of the new bridge. Men commenced the task early in the morning and worked during the storm. After the rails were spiked to the ties the track was leveled up and ballasted, and by early this evening everything will be in shape for traffic, both freight and passenger.

**WANTS ATHLETIC GIRLS TO WATCH SELVES DANCING.**

Mrs. W.H. Bates

**IOWA CITY, Ia., Jan. 16.**—(Special.)—People would be grateful if they could keep watching their images, is the theory of Mrs. W. H. Bates, nee Alice Wilkinson, girls' physical director at the University of Iowa. She applies this to university gymnastics and says the coaches would be less awkward if they could watch themselves dance. Accordingly she has secured permission of university authorities for the installation of room-length mirrors on the gym floor of the girls' new gymnasium building now in process of construction, so that the young women may watch themselves drill or execute aesthetic dance.
